My vision is becoming a reality - finally.

Framing, trenching, ceiling, & electrical rough in are all close to being ready for inspection. I can really start to see what the end product will look like in spite of everything. Can't wait for drywall, then you can really feel it.

The opportunity was there - so we took it.

With our opponents relocation and a neighbor downsizing a space opened up next door. So we decided to lease an additional 900sq/ft. When it's ready we will use it for private events & VIP usage. Lot more flex for private parties.

When entering the cigar business it only seemed right...

Winston's Cigar Lounge LLC. is proud to present The Winston's Cigar. This medium bodied cigar hails from the fields of Plasencia with Jalapa & Estelli fillers. Very well constructed and nicely wrapped in an NI Habano wrapper.

You will enjoy flavors of earth, caramel, nut's and pepper. Our testing group were unanimous, "for the price, you cannot beat this cigar." Retailer or cigar lounge? We will be glad to provide wholesale pricing. Enjoy.
